DETAILED ACTION

Claim Objection under 37 CFR 1.75(c)

Claims 7-10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Jereb (DE 3514724; 10/30/86). Jereb teaches a composition comprising sodium menadione bisulfite (diketone) and precipitated sulfur. See abstract.

Claim Objection

Claims 2,3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not teach or suggest the instant invention comprising the diketones of claims 2 and 3.
